ErgoMax Executive: Master Your Day in Comfort

The ErgoMax Executive is more than just a chair—it's a high-performance seating system engineered to support your body's natural posture throughout the longest workdays. Stop compromising your health for your career; achieve peak performance with the support you deserve.

Key Features and Technology

- **Dynamic Lumbar Support System:** Unlike fixed lumbar supports, the ErgoMax features an **auto-adjusting cradle** that responds to your movements, constantly maintaining the ideal curve for your lower back, whether you are leaning forward or reclining.
- **Synchronous Tilt Mechanism (1:2.5 Ratio):** Recline with confidence. As the backrest tilts, the seat pan gently inclines at a reduced rate, keeping your feet grounded and your spine in a neutral, supported position, improving circulation and reducing pressure points.
- **4D Adjustable Armrests:** Fully customizable armrests move up/down, forward/back, inward/outward, and pivot, ensuring perfect alignment with your desk height and shoulder width to prevent neck and shoulder strain.
- **High-Resilience Memory Foam Seat:** The cushion uses advanced, high-density memory foam that conforms to your body while retaining its shape and support over time, preventing the "bottoming out" feeling common in standard chairs.
- **Aero-Weave Mesh Backing:** A proprietary, ultra-durable mesh material provides superior ventilation, keeping you cool and comfortable all day long, eliminating sweat and heat buildup.

Specifications at a Glance

- **Max Weight Capacity:** 350 lbs (159 kg)
- **Materials:** Polished Aluminum Base, Commercial Grade PU Casters, Aero-Weave Mesh, High-Resilience Foam.
- **Adjustability:** Seat Depth Slider, Headrest Angle/Height, 4D

Armrests, Synchro-Tilt Lock (4 positions).

- **Assembly:** Simple 15-minute tool-free assembly.
